Verb : Use thermal massager. Other Form : Cerageming - Verb : Inflected form. Ceragermer - Noun : Person who loves CERAGEM

CERAGEM Science

Improving Your Health!

CERAGEM combines the benefits of alternative medicine with modern technology to provide effective therapeutic relaxation.

Integrated Alternative Medicine

CERAGEM integrates methods of alternative medicine:

» FINGER PRESSURE

Finger pressure is a practice done by the hand to relieve compressed nerves and muscle tensions. As the spinal nerves are directly connected to the rest of the body, stimulating this system allows the body to return to its natural, healthy rhythm.

» MASSAGE

One of the oldest forms of therapy known to relieve pain, relax the body, and stimulate blood circulation.

» MOXIBUSTION

Moxibustion is the use of heat to stimulate pressure points and blood circulation in order to promote the body's ability to heal itself and to provide relaxation.

» CERAGEM's EFFECT

- Increases blood circulation**
- Relieves muscle pain and stiffness**
- Relieves joint pain and stiffness arising from arthritis**
- Relaxes muscles**

CERAGEM's Automatic Thermal Massager is the world's first massager with an Internal Projector made of jade that emits Radiant Far Infrared Heat which massages the 15 vital points of the spine to improve the user's overall health and increases their energy levels.

Share this wonderful experience with your whole family. Try CERAGEM today!

Experience a Brand New You

by using the CERAGEM Automatic Thermal Massager.

CERAGEM is the world's first and number one Automatic Thermal Massager with an Internal Projector made of jade that emits Radiant Far Infrared Heat, which massages the vital points of the spine to improve the user's overall health and energy level.

» CERAGEM Pressure

CERAGEM Pressure is a unique technique derived from principles of Eastern Medicine by combining Radiant Far Infrared Heat (generated from the Internal Projector) for a Moxibustion effect and applies it with massage to the 15 vital points of the spine. This technique stimulates "Qi," which is the life force in our bodies, while increasing blood circulation and alleviating stress which results in improving your overall health.

» CERAGEM Warmth

The Benefits of Radiant Far Infrared Heat have been researched and noted for increasing blood circulation throughout your body, which in turn, improves your overall health. You can receive an optimal level of Radiant Far Infrared Heat to all parts of your body through the use of Epoxy Carbon Panels in the main and lower mats.

» CERAGEM Massage

The Internal Projector provides massage along the spinal column improving overall health, relieving muscle tension, alleviating pain caused by incorrect posture and relaxing tension around the spine from everyday stress.

Innovative Features

to enhance Your Life!

CERAGEM and your Health

MAIN AND LOWER MAT

It utilizes the Epoxy Carbon Panels to emit an optimal level of Radiant Far Infrared Heat. In addition, the material is made by utilizing the sponge foaming method which makes it highly durable.

EXTERNAL PROJECTORS

CERAGEM comes with a 3-sphere and 9-sphere External Projectors. Application of the External Projectors in unison with the usage of the CERAGEM Automatic Thermal Massager will enhance the overall effectiveness of the CERAGEM.

PROTECTIVE COVER

Covers are detachable for laundering.

SOPHISTICATED DESIGN

This ergonomically designed product will fit beautifully into any interior space while leading you on the road to a healthy lifestyle.

SMART BACK-TRACK SYSTEM

The bio-technically advanced Internal Projector is set on an ergonomically designed guidance track that follows the natural curvature of the spine.

The weight of the user provides balanced pressure along the spine, while working in unison with the effects of Radiant Far Infrared Heat for maximum pain relief and relaxation.

REMOTE CONTROL

The multi-function remote control allows for a complete thermal massage at the touch of a button.

The adjustable cradle for the remote control allows the user to control the massager with maximum ease during each massage session.

Temperature Control and Display

The controller allows the user to adjust the temperature of the Internal and External Projectors. Setting Range and Measurement Unit : 86 – 140 F

Error Code Display

If any problems should occur, an error code will appear on the Temperature Display to indicate a problem.

Automatic Mode

Automatic Mode: This mode is preset to apply CERAGEM Pressure (moxibustion and finger pressure effects) and Massage to all areas of your spine and abdomen for approximately 40 minutes.

Manual Mode

The internal projectors are manually operated to apply CERAGEM Pressure to desired areas of your body.

1 Pre-Programmed Mode
1 Manual Mode

How CERAGEM's Massage Session Works in Automatic Mode

The Internal Projector starts its session from Point 1 in the diagram above, and works its way moving to each pre-determined points. After repeating the cycle twice, the Internal Projector applies CERAGEM Pressure for approximately 2 minute at each designated points. An application of intensive Moxibustion effect with Radiant Far Infrared Heat will follow.

Once the Projector reaches point 13, turn your body and lay face down to apply massage, CERAGEM Pressure and a Moxibustion effect to the abdominal area, at Points 13 through 15.

Ergonomic design that set a new standard in automatic thermal massagers

The Smart Back Track System that considers the curve of the spine, the Epoxy Carbon Panels that provides a better thermal massage effect, and the Burn-Prevention Program are some of the cutting-edge technologies behind the Ceragem Master M3500 model, setting a new standard in thermal massagers.

World-renowned product quality

Since it's introduction, the Ceragem Master M3500 model is being sold in over 50 countries and is recognized for its superior quality and value around the world. And its quality and safety have been proven through certifications from various countries.

Specifications

Model Number	CERAGEM - M3500
Product Description	Automatic Thermal Massager
Massage Modes	Automatic, Manual
External Projectors	2 sets (3-sphere, 9-sphere)
Epoxy Carbon Panel	Main mat, lower mat
Remote Control Features	Massage mode, projector settings Temperature indication, internal projector control(manual), error code display, power control
User Temperature	30~60°C (86~140°F)
Product Size & Weight	1210*630*150mm, 28kg (main mat) 770*540*120mm, 10kg (lower mat) 1260*590*145mm, 23kg (frame)
